

# ATHARVA GADEKAR

 atharva-gadekar  Atharva Gadekar  atharvagadekar@gmail.com  Portfolio  +91-9324238121

## EDUCATION

---

- **Indian Institute of Information Technology, Allahabad** Prayagraj, Uttar Pradesh  
*B.Tech- Information Technology - CGPA: 8.48* December 2021 - Present
- **Royal Junior College** Dombivli, Maharashtra  
*Class 12 HSC - Percentage - 96%* June 2019 - April 2021
- **Omkar International School** Dombivli, Maharashtra  
*Class 10 ICSE - Percentage - 98.5%* May 2019

## EXPERIENCE

---

- **Buzztro**  Nov, 2023 – Current  
*Frontend Developer Intern : NextJs, TypeScript* Remote
  - Currently building Admin Side for Buzztro, an Ecommerce Startup, using NextJs and Typescript. Leveraging *refine.dev*, an Open-source Retool for Enterprise, I've authored critical features including **authentication**, **product management** (variants and categories), **orders and bookings management**, **dashboard analytics** and currently implementing sections like **Drops** — Buzztro's pivotal feature, designed to utilize sockets for real-time updates.

## TECHNICAL SKILLS

---

- **Languages:** C, C++, Java(Basic), SQL(Basic)
- **Web Technologies:** HTML, CSS, Javascript, ReactJs, NextJs, NodeJS, MongoDB, Prisma, Typescript (Basic)
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Database Management System, Object Oriented Methodologies
- **Utilities & Framework:** Git, GitHub, ExpressJS, AWS S3, AWS EC2 (Basic), Tailwind CSS, React-Query, Postman

## PROJECTS

---

- **WorkWise (ReactJs, ExpressJs, Tailwind CSS, AWS EC2, MongoDB) :**  **Frontend**  **Backend** **Live Link**   
A partially open-sourced productivity app with features like Pomodoro Timer, To Do List, Bookmarks and Kanban boards, designed to enhance focus and efficiency. I mentored this project during its open-source phase and contributed to both frontend and backend after the open-source period ended. The Project accumulated over **50 Commits**, engaging **over 10 contributors**, assigned **28 issues**, and successfully **closed 33 pull requests**, during OpenCode '22.
- **Persista (NextJS, Typescript, ExpressJs, Prisma, Llama 2):**  **GitHub** **Live Link**  **Demo Video**   
Persista simplifies customer retention and feedback for small businesses through seamless developer integration. It abstracts the process with **npm packages**, **@persistajs/react** and **@persistajs/core**, enabling dynamic final pitches based on user sentiment. Unlike static forms, Persista engages users effectively. I played a key role in developing Persista's backend using MySQL and Prisma. I also contributed to the frontend integration in NextJS and TypeScript, utilizing the React Query library for efficient state management. Our project was recognized as a **top-10 nationwide** entry in the **Hackout 2023** hackathon by Headout.
- **Utkarsh Portal(NextJs, Tailwind CSS, ExpressJs, AWS EC2, MongoDB) :**  **GitHub** **Live Link**   
A portal to manage the complete Placement Drive in the college from announcements to selections, all in one place. Coauthored the **Admin & User Announcements section** and the **Authentication** using the institute's **Aviral** Credentials. The Frontend was done using NextJs by using Material UI, Tailwind CSS and React-Query for fetching queries and managing state. Used ExpressJs for the backend with Mongoose as ORM.

## ACHIEVEMENTS

---

- My team ranked in **Top 10 nationwide** in the **Hackout 2023**, hosted by **Headout**, for our project **Persista**.
- Won **First Prize** at Web Wars a Web Development contest organised by GeekHaven, IIITA 2022
- Solved more than **600** questions on **Interview Bit**  and **Leetcode**  combined.

## POSITION OF RESPONSIBILITY

---

- **Coordinator, GeekHaven Web Development Wing:** Currently managing the wing. Built Projects like the Utkarsh (Placement) Portal, Lost and Found, which would benefit IIITA students, supervised Geekhaven Events portal.
- **Mentor for WorkWise, Opencode:** As a mentor for WorkWise OpenCode, I facilitated a month-long open-source event where programmers collaborated and built innovative solutions.
